Our products are in demand and appreciated, and we are committed to continuing our commitment to quality and sustainability. Become part of this exciting journey!

COTTON PLASTER FOR YOUR HOME

- **Naturally effective, biodegradable and sustainable! What is Cotton Plaster / Liquid Wallpaper?**
- Cotton plaster or liquid wallpaper is an alternative coating for walls and ceilings that sits between conventional wallpaper and plaster. The surface is similar to that of a plaster, as it is slightly to strongly structured, depending on the décor, and has no joints or seams. Compared to thin wallpaper, cotton plaster provides better insulating properties for walls and ceilings, and also absorbs sound due to its structure.

ADVANTAGES AND FEATURES OF COTTON PLASTER

Cotton plaster offers numerous positive properties in a single product and is an alternative to traditional wall and ceiling coatings such as wallpaper or rough plaster. This unique plaster improves the indoor climate, reduces noise and is repairable. Thanks to its efficient thermal insulation, you will save money on investing in cotton plaster.

Cotton plaster is aimed at creative DIYers and craftsmen who want to offer something unique to their customers.

ECO-FRIENDLY COTTON PLASTER WITH NATURAL RAW MATERIALS

- Cotton, as the main component of cotton plaster, is a natural raw material with energy-efficient properties and a long service life. This makes cotton plaster an eco-friendly choice.

EFFECTIVE THERMAL INSULATION FOR COMFORT AND SAVINGS

- Cotton plaster is an excellent choice to improve the thermal insulation of your rooms. Thanks to the efficient insulation, the room temperature remains comfortable, and you can save on heating costs.

EXCELLENT SOUND INSULATION FOR OPTIMAL ROOM ACOUSTICS

- Our cotton plaster goes a long way in improving room acoustics by reducing reverberation in your living spaces. Enjoy a quiet and relaxing atmosphere in your home.

COST-EFFECTIVE AND ADAPTABLE

- Our cotton plaster offers an affordable way to decorate the room and is easy to touch. With excellent heat-insulating properties, it helps to reduce heating costs. A versatile and economical product for your living spaces.

HEALTHY WALLS FOR ALLERGY SUFFERERS: COTTON PLASTER AS AN IDEAL SOLUTION

- Cotton plaster is an excellent choice for allergy sufferers because it is allergen-free and supports a healthy indoor climate. Its high-quality texture makes it particularly suitable for people with allergies.

UNCOMPLICATED WALL DESIGN FOR DO-IT-YOURSELFERS: EASY PROCESSING GUARANTEED!

- The processing of this product is child's play, making it perfect for DIYers and DIY enthusiasts. With its uncomplicated application, wall design becomes a pleasure.

MOISTURE-REGULATING WALL DESIGN: PERFECT FOR DAMP ROOMS!

- The cotton plasters are an excellent choice for damp rooms such as bathrooms, as they effectively regulate moisture. In this way, they not only create a healthy indoor climate, but also ensure a durable and beautiful wall design in damp rooms.

FIRE PROTECTION WITH STYLE: FLAME RETARDANT WALL SOLUTIONS FOR YOUR SAFETY.

- These wall solutions provide fire protection, and there is an option to choose flame retardant options to meet your safety needs.

DUST-FREE ENVIRONMENT: ANTISTATIC WALL SOLUTIONS FOR CLEANLINESS AND COMFORT.

- Thanks to their antistatic properties, these products do not attract dirt particles from the indoor air, which ensures a permanently clean and comfortable environment

INDIVIDUAL ROOM DESIGN ACCORDING TO YOUR WISHES!

- With a wide range of possible combinations in terms of structure, colour and admixtures, you can create your own personal décor for your own four walls. Make your interior design unique and individual.

DIVERSE CHOICE OF COLOURS: DESIGN YOUR HOME COLOURFULLY AND INDIVIDUALLY!

- Cotton plaster is available in various shades - from light to dark, from pastel to solid - and can thus be individually adapted to the interior.

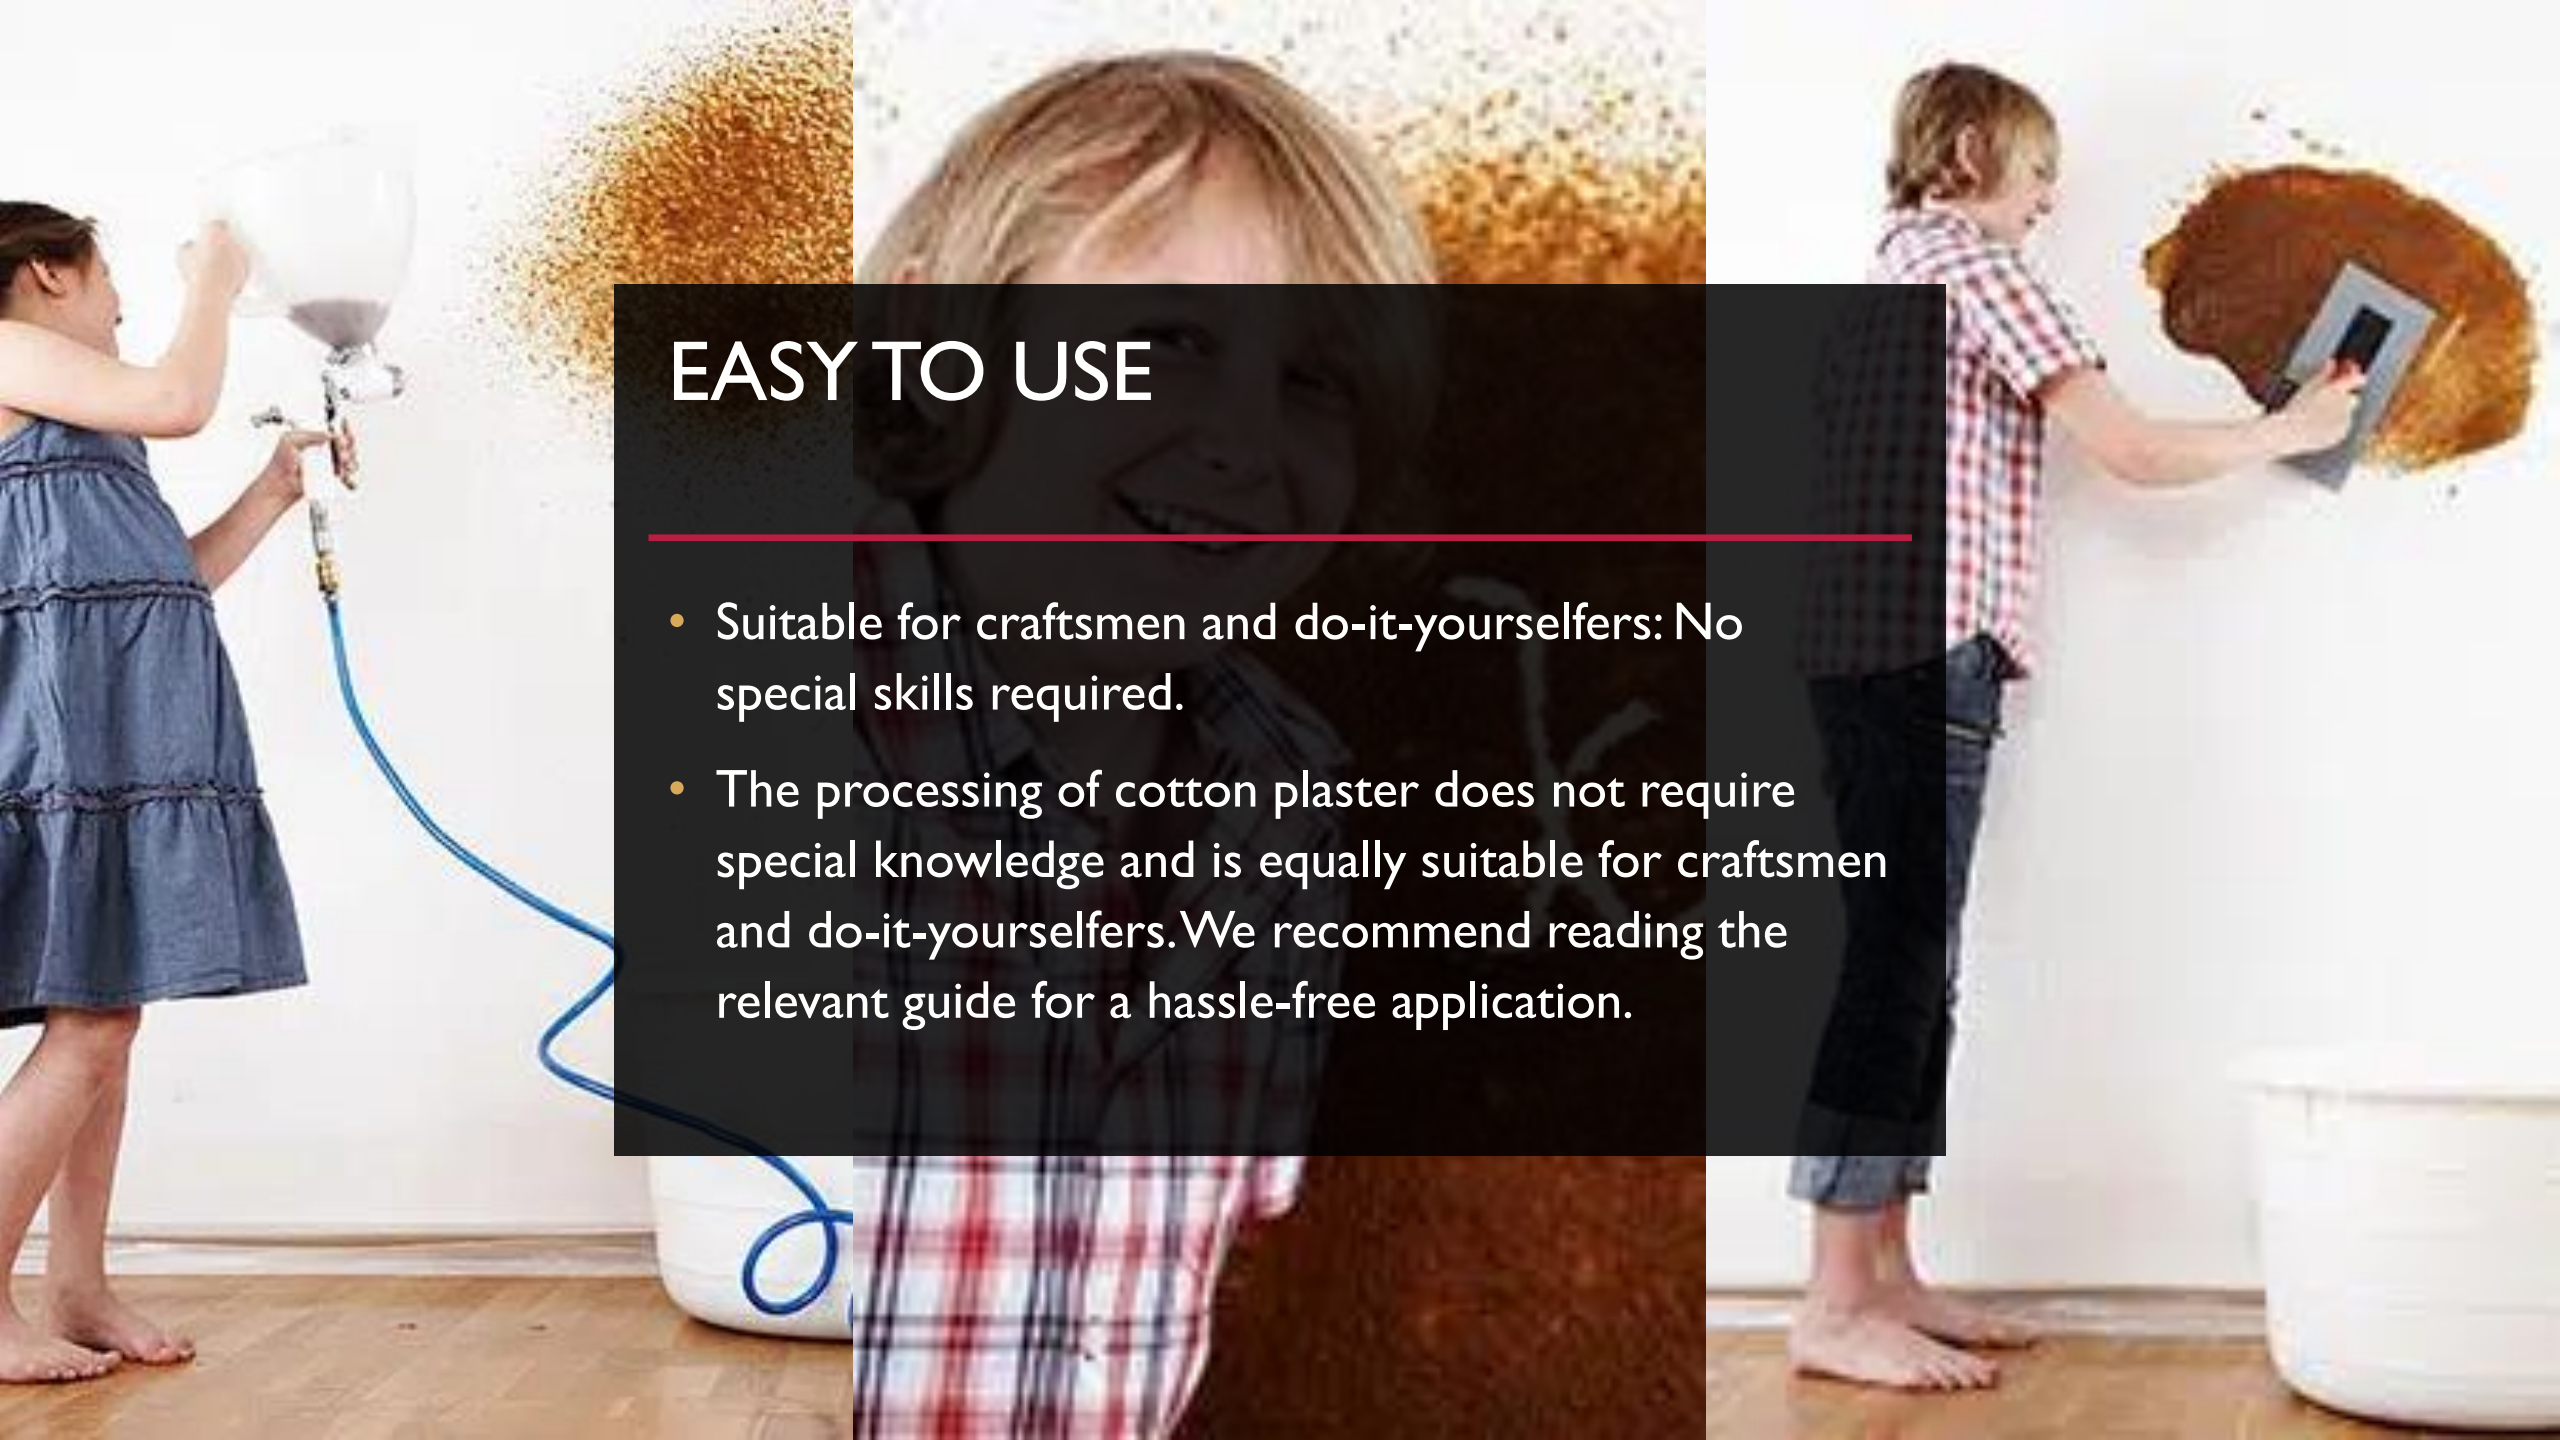

PURE COSINESS: SOFT SURFACES FOR YOUR HOME.

- The soft surfaces of cotton plaster create a cosy atmosphere in your living spaces that invites you to relax and feel good.

PROFESSIONAL SUBSTRATE
PREPARATION MADE EASY

- Before designing your walls, some preparatory work is required, similar to wallpapering. If your substrate contains water-soluble, discolouring substances, we recommend our combined adhesion/barrier primer. This not only serves as an excellent adhesion primer, but can also help to strengthen the substrate. When applied twice, it also offers an effective blocking effect. The addition of quartz sand also ensures optimal grip when applying your wall design material with a trowel. In this way, you will create the ideal foundation for a flawless end result.

EASY TO USE

- Suitable for craftsmen and do-it-yourselfers: No special skills required.
- The processing of cotton plaster does not require special knowledge and is equally suitable for craftsmen and do-it-yourselfers. We recommend reading the relevant guide for a hassle-free application.

"WE ARE LOOKING FORWARD TO A SUCCESSFUL BUSINESS RELATIONSHIP"

- We look forward to the opportunity to build a successful and long-lasting business relationship with you. If you have any further questions or concerns, please do not hesitate to contact us.
